

SANITATION WORK MOVING

Big Map Being Made For Use of Commission.

A comprehensive plan of the water and sewer system of Honolulu is being prepared by the draughting bureau of the Department of Public Works for the use of the Sanitary Commission in its work in formulating a definite policy for the improvement of sanitary conditions. The map will be largely for the use of James L. Young, in whose hands his fellow members of the commission have placed the work of studying the water and sewer necessities of the city. The map is a very large one and when completed will show in a graphic manner all of the sewer and water system of Honolulu.

The health department is making a thorough canvass of the conditions surrounding the slaughter houses in the city and has been devoting particular attention to the conditions in the vicinity of the Kalihi stream which has been more or less of an open sewer into which pig sty and other insanitary places empty their refuse. A careful plan for the rehabilitation of this district by the cutting through of a new street and the placing of a sewer is under way by President Mott-Smith.

LOCAL AND GENERAL

John Fernandez, a deputy sheriff at Ewa, has been granted a brief vacation at the instance of the Board of Supervisors. Fernandez begins his vacation with June 30th.

J. A. Magoon is said to have bought Jack Scully's theatrical interests for \$20,000 at a meeting yesterday afternoon. Mr. Scully could not be located this morning to confirm the story.

The City and County road committee has agreed to allow the Clean-up Day committee the use of all city dump carts, wagons and other paraphernalia on next Saturday. A number of city gangs will also be placed at the disposal of the workers.

Mayor J. J. Fern declares that he will carry his fight for his rights into the Supreme Court. Fern made this statement last night in connection with bringing up of an ordinance delegating the power of appointment of road engineer and supervisors to the City and County board.

A Chinese named Wong Goo Chan has been granted a permit to erect a one story tenement house at the Wai-ki corner of Kapiolani and Wai-ki roads. The petitioner is said to have secured the signature of the required number of property owners residing within a radius of five hundred feet of the proposed tenement.

Business men and property owners in the vicinity of King between Nuuanu and Maunakea streets have come forward with a petition to the Board of Supervisors that a permit for a hack stand at that intersection be not granted. The petitioners claim that a continuance of the stand at the present location is a nuisance.

James F. Morgan and others have petitioned the Board of Supervisors asking that a road be built into lands situated in Kaneohe. It is claimed that at present time the only access into their property is through the premises of Messrs. Hamilton and Bergstrom who have the land planted in cotton. It is believed that this only means of outlet may be closed at anytime.

The position of pound master for Koolapoko is sought after by Otto Ludloff, who asks that he be allowed to take the office vacated by the death of David Watson. Ludloff is at present time manager of Kaneohe Ranch on the other side of the island. He agrees to accept the position without pay. His appointment was confirmed at a meeting of the board held last evening.

The Makiki ditch is declared by President Mott-Smith of the Territorial Board of Health as insanitary and in need of immediate repair. This state of things was brought before the City and County Supervisors at a meeting held last night. Mott-Smith states that the ditch is a breeding place for mosquitoes. He finds that the bottom is covered with holes in which water collects and forms stagnant pools.

PERSONALITIES

JOHN F. COLBURN, who intended to leave for the States this morning, postponed his trip until after he has received a cablegram from Delegate Kuhl.

SHERIFF JARRETT, who went to Hilo last week, returned this morning in the Claudine. He said that Hilo is growing. He left again this morning for Kaneohe, returning this afternoon.

MRS. W. T. RAWLINS, wife of U. S. Assistant District Attorney Rawlins, was among the departing passengers in the Sierra this morning. She will be absent from the Territory a few weeks.

The Hawaiian Cotton Growers' Association will hold a meeting this afternoon at the Commercial Club at 4 o'clock. Among the matters to be discussed is a campaign against the threatening boll-worm.

PIONEER MILL TO USE PROCESS

Ed Pollitz, the San Francisco sugar broker and Hutchinson plantation manager, sailed on the Wilhelmina this morning for San Francisco. Before leaving, he announced that the patent sugar reduction process in which he is interested will be permanently installed at Pioneer Mill, the work of installation taking place after the present sugar-grinding season is over.

"I am not prepared to say that so far the experiments with this patent process have been a success," said Mr. Pollitz, "but I am just as firmly convinced of its value and ultimate success as ever, and it will be given a thorough try-out at Pioneer Mill. This can not be done during the grinding season, but the necessary machinery will be put in place after the grinding is over, and next year the results should be apparent."

"This process is the invention of William Henning, chemist and sugar broker for the Pioneer Mill Company."

GERE IN CHARGE OF BELT ROADS

There is an increase in salary in store for City and County Engineer G. H. Gere in the carrying out of recommendation from the Territorial belt road commission, who, through a report from Secretary T. H. Petrie, announce that in a preliminary consideration of the matter governing the expenditure of funds made available at the last session of the Legislature, for the construction of the so-called belt road on this island, the commission is desirous of availing itself of the services, in an engineering capacity, of Engineer Gere, at present employed with the city and county. It is hoped by the commission to thus be able to avail itself of the present organization and equipment of the engineering department, it being understood, however, that all additional assistance and equipment needed in view of the work required by the commission will be provided for out of funds of the commission.

Chairman Murray stated at last night's meeting of the board that it was the intention to pay Engineer Gere an additional amount, this increase to come from funds set aside for the construction of the belt road.

The commission has held a series of meetings and conferences and is ready to start preliminary work.

According to present plans, work will begin on a section of about five miles, commencing at Heala and extending to Wai-ki bridge. The present road is merely dirt and is declared as much in need of attention.

PROBLEM FOR SUPREME COURT

The Territorial Supreme Court has been asked to determine a question involved in the collection of income taxes on the Galbraith estate, the problem being submitted to the court on an agreed statement of facts, a controversy having arisen between the Hawaiian Trust Company as trustee under the Galbraith will and Charles Wilder, the Tax Assessor. The gross income from the estate during the year 1910 amounted to \$19,816, there being a surplus of \$2,887.81 after the annuities under the will received their allotments. The status of this money under the income tax law is before the court.

E. W. Sutton, Deputy Attorney General, will appear for the Territory in the case and Kinney, Prosser, Anderson and Marx for the Hawaiian Trust Company.

MARKET SLUGGISH WITH FEW SALES

Trading in sugar stocks was little more lively today than yesterday. Pioneer at \$205, Wai-ki at \$113, Oahu at \$31, a drop of a quarter of a point, and Ewa at \$31.62½, were among the transactions, but the demand for stocks was not heavy.

A slight stimulus was given the market by the receipt of news yesterday afternoon that Hawaiian Sugar directors had declared an extra dividend of 40 cents a share, payable June 30. This extra dividend will amount to \$60,000 and comes at an opportune time.

The Hawaiian exchange has the following quotations today:

Creme Pet. Off.	1.70	1.80
Hon. Con. Off.	.15	.35
Temple Ranch	.08	.09½
Ventura Oil	.08	.04
Purissima Hills Oil	.20	.25

Blank books of all sorts, ledgers, etc., manufactured by the Bulletin Publishing Company.

PUNAHOU 1911 HAS GRADUATED

Interesting Exercises In Bishop Hall—Present to School. Honor Roll.

Punahou Preparatory's large class of 1911 held its graduating exercises in Bishop hall this forenoon and with the excellence of the program rendered rounded out the record that is a credit to the school as well as the pupils.

Members of the class having special parts in the program were seated on the attractively decorated stage with Principal Pitts, President Griffiths and Rev. R. E. Smith. All the parts were well rendered, the musical numbers by the members of the class and the chorus songs of the boys and the school choir, showing good training and good judgment in selection.

There were two declamations, both exceptionally well rendered. Dorothy Hoogs gave "A Besetting Sin," the story of the small boy determined to be good. "The Rising of 1776," by Joseph R. Farrington, was very well done, the young man having a good voice and doing his part with a patriotic vigor and enthusiasm that caught the favor of his audience.

The class essays were well prepared and delivered. Ramona Morgan told of the great work of Jane Addams and how the condition of the poor was brought to her attention. Harriett Carter took his audience to Panama and described the progress of the great American task in that part of the world. Hilda von Holt's "The Broken Tabu" was a pretty Hawaiian legend well told. Miss Maybelle Taylor took for her topic the Silver Sword found on Haleakala. Catherine Kerr gave an insight into the practical life of the District Nurse in Honolulu. J. Platt Cooke, Jr., described the sugar planters' experiment station and its successful struggle with the pests that attack the cane. Helen Wilder reviewed the Boy Scout movement and Stella Hoogs gave an original folklore story that was very interesting. The closing class part was by Bernard Damon, who had an illuminated map of the islands to illustrate his description of the light houses of Hawaii.

After the final musical number, President Conely of the class made a presentation to the school on behalf of the class of a beautiful koa cabinet for keeping the school music. This was accepted by Principal Pitts, who previous to his presentation of diplomas commended the class on the work it had done and counseled them to go forward remembering that their success reflected honor on their school. Members of the class, most of whom will enter Oahu College next fall, follow:

Herbert Dickenson Baldwin, Maud Thelma Ballentyne, Llewellyn George Bertelmann, Kathryn Blake, Abigail Mary Bromley, Arthur William Brown, Gordon Denny Brown, George Kahalewal Campbell, Nora Hapaikoa Campbell, Alfred Hartwell Carter, Cleo Anita Case, William Antonio Conely, George Malcolm Conely, Joseph Platt Cooke, Jr., Bernard Hopper Damon, Joseph Rider Farrington, Mary Lillian Forrest, Lawrence Gay, Aileen Lilline Gibb, Edith Lilline Gibb, Juliette Agnes Henderson, Whitson Chup Hong, Dorothy Maxwell Hoogs, Stella Hoogs, James Ho On, Robert Sanderson Horne, Catherine Hay Jones, Catherine Kerr, Claude Richard King, Laura Louise Low, Kim Wai Lam, Francis Blakely McStocker, Joseph Bertrum Meinecke, Ramona Frances Morgan, Stanley Mott-Smith, Sydney George Nicholson, Philip Avery Ovensen, Katherine l'Ours Paris, William Johnson Parfiss, Kong Tai Pong, Hester Pratt, George Medeiros Quintal, Violet Moyle Rickard, Gertrude Kulamann Ripley, Howard Hall Seville, Maybelle Evelyn Taylor, Hilda Karen von Holt, David Samuel Wadsworth, Ida Johanna Wehselau, Helen Kinan Wilder, Mele Kalanaula Williams. Present registration 55.

Members of the class who had gained an average of "A" or above ninety per cent in their principal studies for the final year of their course were Harriett Carter, J. Platt Cooke, Jr., Joseph R. Farrington, Helen Wilder, Hilda von Holt and Catherine Kerr.

FIGHTERS BACK TO "THE CITY"

"Kid" George and Patsy McKenna, the middleweights who fought fifteen rounds at the Orpheum last Saturday night, were departing passengers on the Wilhelmina this morning. There was some talk of George staying here for another fight, but as Dick Sullivan had no matches for him in sight, he decided to leave.

Sullivan said this morning that he has no immediate plans for future matches here. However, all the fans are about warmed up now to good boxing, and they all hope that Sullivan will be able to arrange a scrap and make a success out of it financially as well as otherwise.

MAUI MOURNS ROBERTS' DEATH

(Special Bulletin Correspondence.)
Wailuku, June 16.—Chas. McJannet Roberts, head luma of the Wailuku section of the Wailuku plantation, died at the Malulu Hospital of appendicitis at 7 o'clock last Tuesday morning, June 13th, aged 40 years and six months. He was operated upon for appendicitis by Doctors W. Osmers, W. F. McConkey and F. E. Sawyer at Malulu Hospital last Saturday morning.

He was born at Glenwood, Yarmouth County, Nova Scotia, December 7, 1870. Previous to coming to the Hawaiian Islands he worked first as carpenter and then as contractor in San Francisco. His first work in these islands was at Wailuku plantation on Oahu, where he worked for five years, and when the late Thos. Cummings of Wailuku died some five years ago, Mr. Roberts came here and assumed the head lumsanship of that section, which has been growing since his advent, and he was considered a very successful sugar man and was loved by the men under him. The Koreans and other different nationalities all mourn his death, saying "hoos make, too much pikia."

The funeral procession started from the Wailuku home of Manager H. B. Penhallow of the Wailuku Sugar Company, the pall bears being: Magistrate W. A. McKay, H. B. Penhallow, D. H. Case and C. E. Copeland for the Union Church and Messrs. A. Gross, E. E. Bartelle, G. Wilbur and W. L. West for the plantation. The floral offerings from friends were numerous and beautiful. He leaves a wife and son, Weymouth, now attending Oberlin Preparatory school, and a mother, a brother and sister residing at the old homestead in Nova Scotia. The son has been cabled to return at once.

ROBBER FOUND TO HAVE DOUBLE

Henry Lopez, who was arrested by Sheriff Pua at Hilo last week, was brought down to Honolulu this morning by Sheriff Jarrett. Unfortunately for Jarrett, though, Lopez is not the man wanted in connection with the robbery which John Farr committed in the Manoa district.

It was after the receipt of a wireless message from Sheriff Pua last week that Sheriff Jarrett hurried to the Crescent City. He arrived there last Sunday morning in the Claudine, and went directly to meet Sheriff Pua. The two sheriffs then went to the prison to ascertain the correctness of the description of the man with those which were furnished them by John Luan.

Pua and Jarrett spent considerable time in comparing the marks and signs of Lopez with the description they had. Everything indicated that they had got the right man. They decided then that the best thing to do was for Jarrett to bring him to Honolulu, where John Luan could be introduced to Lopez.

In the absence of Sheriff Jarrett, who went to Kaneohe on business this morning, Chief of Detectives McDuffie went to the penitentiary to see the man today. It was then that the remarkable likeness was discovered.

WEATHER TODAY

Temperatures.—6 a. m., 73; 8 a. m., 76; 10 a. m., 79; noon, 78; morning minimum, 69.

Barometer, 8 a. m., 30.04; absolute humidity, 8 a. m., 6.758 grains per cubic foot; relative humidity, 8 a. m., 70 per cent; dew point, 8 a. m., 66.

Wind.—6 a. m., velocity 6, direction NE; 8 a. m., velocity 6, direction NE; 10 a. m., velocity 9, direction NE; noon, velocity 12, direction NE.

Rainfall during 24 hours ended 8 a. m., .02 inch.

KELLY'S CARD IS BOOST FOR HONOLULU

The Evening Herald office today had the pleasure of entertaining two "old-timers," who drifted into Albuquerque this morning from different points of the compass. R. S. Kelly, who worked at the case on the old Albuquerque Citizen, was the first man to hand in his card. And Kelly has a card of some shape and proportions. Kelly left Albuquerque in 1898, at the time the Spanish war broke out. He joined the New Mexico volunteers, tying up in Honolulu after the war. Kelly's personal card consists of four large pieces of cardboard, fastened together with a staple. The cardboards are of gray, and red and white and blue colors.

Printed in gold Kelly has the history of his life; a brief history of Honolulu and what it offers to homeseekers. The card is quite unique and could not be carried by anyone else but a wealthy printer. Kelly is en route to St. Louis for a visit with his folks—Albuquerque Herald, June 8.

Here He Is—

A Story of Political Trickery and Love, of Action, High Purpose and Real Thrills
